

Long-term perspective, alignment of goals

Identifying and solving complex business challenges by implementing bespoke solutions with flexible private capital

LongRange Capital – Constructive Investment Partners

Founded in 2019, LongRange Capital was formed to take a **longer-term perspective** to investing and building stronger middle market businesses through a **company-focused and customer-first philosophy**.

The firm's investment professionals have a demonstrated track record of success and collectively bring **50+ years of investing experience**. Our capital offers the **flexibility** to be either a majority or minority owner as well as a partner or structured capital provider to corporations, families, business leaders and other shareholders.

Regardless of ownership position, location, company size, or investment level, we attempt to deliver a practical and **differentiated approach** and associated solution. Over multi-decade careers, our principals have accumulated significant experience in many sectors and investment types. Our **collaborative** work style, non-financial engineering approach, multi-sector and situational experience, tailored capital flexibility, and willingness to **identify solutions** through multiple, differentiated perspectives set us apart.

FUND & INVESTMENT SIZE

\$1.5 billion discretionary equity fund that can invest **\$50-400 million** in a single company with the ability to double those amounts via co-investments

INVESTMENT TYPE

Flexibility to be minority or majority investors or joint venture partners who look to tailor the investment structure to the unique goals of the company and its shareholders

INDUSTRY EXPERTISE

Extensive experience investing in and operating companies in **food & beverage, non-discretionary consumer, data & information-based services and value-added industrials**; focusing on **greater tech-enablement**

GEOGRAPHIC FOCUS

Companies headquartered in **North America or Europe** (often global operations)

INVESTMENT LIFECYCLE

Focus on **building better businesses over the long-term** and increasing their relevance & value

Our principals have a long track record of assisting management teams in developing better businesses through a variety of value-creating initiatives. We are not financial engineers and view excessive leverage as an increased and unnecessary risk to the business.
